SUMMARY

Dynamic and results-driven with a passion for full stack web development and problem solving. Skilled in building robust, user-focused web applications and mastering data structures and algorithms. Adept at picking up new technologies quickly and thriving in collaborative environments.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript
Frontend Tools: React.js, next.js, Javascript, CSS, HTML
Backend Tools: Node.js, Express.js
Databases: MongoDB, MySQL
Version Control and Collaboration: Git and GitHub

EXPERIENCE

AI/ML Intern

June 2025 - July 2025

Edunet Foundation

Remote

- Developed an **Employee Salary Prediction model** using real-world demographic and work-related data.
- Cleaned, processed, and encoded categorical and numerical features for effective machine learning modeling.
- Applied supervised learning techniques to classify income levels based on multiple predictor variables. .
- Documented project workflow, challenges, and insights in a reproducible Jupyter notebook format.

PROJECTS

Employee Salary Prediction Model | Machine Learning Algorithms

June 2025

- Developed a salary prediction model using machine learning algorithms including Linear Regression, Decision Tree Regressor, and Random Forest.
- Cleaned, processed, and encoded categorical and numerical features for effective machine learning modeling.
- Applied supervised learning techniques to classify income levels based on multiple predictor variables

News Website | React

Jan 2025

- Built a dynamic news website using React, fetching live news from APIs and presenting it in a personalized format.
- Used modular React components to display, filter, and search news based on user interests and categories.
- Integrated third-party news APIs for up-to-date content and implemented features such as infinite scrolling, social sharing, and responsive design.

ChatGPT Web App | HTML, CSS, JavaScript

Nov 2024

- Developed an interactive chatbot web application simulating GPT-like conversation using HTML, CSS, and JavaScript.
- Implemented real-time messaging functionality with seamless user experience and visually appealing UI.
- Handled dynamic user interactions, message parsing, and display logic, enabling engaging and responsive chat flows
- Demonstrated strong front-end development skills, modular JavaScript coding, and API integration.

EDUCATION

RAJASTHAN TECHNICAL UNIVERSITY, KOTA

2023 – 2027

B.Tech - Computer Science and Engineering

KOTA, RAJASTHAN

CGPA - 7.68

CERTIFICATIONS

- Web Development - IBM SkillsBuild
- Artificial intelligence Fundamentals - IBM SkillsBuild
- Python & Machine Learning - Think wave technologies Pvt Ltd
- Cyber Security - IIRS, ISRO
